

Helen FRANCIS

Helen Francis is committed to the Hawke's Bay community. Now into her second term on the District Health Board, Helen serves on the disability support and community and public health advisory committees. She is a specialist nurse at the Hastings Health Centre with 30 years nursing experience in community health.

Helen has strong board experience, serving on Napier Girl's High School board of trustees. She is on the committee of Alzheimer's Napier. With a post-graduate business diploma in governance, Helen has the skills needed to take the Hawke's Bay Power Consumers' Trust forward.

If elected to the trust, Helen will put the interests of power consumers first. Our power lines company Unison must remain in the hands of Hawke's Bay people. The power trust's assets must be protected for future generations, says Helen. We must take opportunities such as developing the broadband network to help grow the region's economy.
