

You need consent from UNISON before you dig within 5 metres of a power pole or electrical asset.

Always locate CABLES before you dig.

CUTTING TREES near powerlines is hazardous and can KILL.

Mobile plant and any load carried must stay at LEAST 4 metres from OVERHEAD LINES.

Be aware of OVERHEAD LINES before you raise your hoist.

# BE AWARE ELECTRICITY KILLS

Working closer than 4 metres can KILL.

Contact UNISON before you start work within 4 metres of OVERHEAD LINES.

## You MUST contact Unison...

To get Written Consent...

- If you plan to work within 4m of power lines
- If you plan to dig within 5m of a power pole or power box
- Before you trim or fell trees near power lines

Or, if you...

- ...need underground electric power cables located
- ...have concerns with power lines in your work area
