

# UNISON ELECTRICITY DISTRIBUTION DELIVERY PRICES

## HAWKE'S BAY PRICING REGION - EFFECTIVE 1 APRIL 2022

Disclosure pursuant to the Electricity Distribution Information Disclosure Determination 2012. Unison is responsible for the design, development and maintenance of the electricity lines network that delivers power to homes and businesses in Hawke's Bay, Taupo and Rotorua. Unison's electricity delivery charges are a component of the electricity account you will receive from your electricity retailer. These charges are not the same as the electricity retail charges that appear on consumer accounts. Retail charges include other costs, such as energy purchases, that are repackaged by retailers into electricity retail charges. Other lines and Use of System charges or conditions may apply. Please refer to [www.unison.co.nz](http://www.unison.co.nz) for the full Unison Pricing Schedule. If you have any questions or would like more information on these charges, please contact your electricity retailer.

<sup>1</sup> The no. of Consumers is an estimate of those who will pay a particular price during their 2022-23 year.

- Notes
- All price categories, with the exception of Unmetered U01 and U02, include a fixed daily charge and one or more variable charges. The variable charges that apply to your connection are dictated by the type of meter and metering configuration.
  - "Consumption at Peak times (ONPK, PKIN) occurs during the period 7am to 11am and 5pm to 9pm each day. Consumption at Shoulder times (SHDR, SHIN) occurs during the period 11am to 5pm and 9pm to 11pm each day. Consumption at Off peak times (OFPK) occurs during the period 11pm to 7am each day."
  - The G11 and G12 Residential Generation categories have been closed, all connections will move to other Residential price categories. Either consumption or Time of Use. This has been completed to simplify our pricing following LFC reform.
  - Peak Demand (SOPD and WOPD) relates to kW's delivered over the half hour period of maximum demand between the hours of 7am and 11am, and, 5pm and 9pm on a working day.
  - Summer is the period 1 October to 30 April, Winter is the period 1 May to 30 September
  - Monthly Demand (DMND) relates to the kW's delivered over the half hour period of maximum demand during the month to which the charges apply.
  - A full description of Power Factor (KVAR) is included in the Pricing Policy and Schedules available on the Unison public website, [www.unison.co.nz](http://www.unison.co.nz)
  - Consumption during the Day (CTUD) occurs between the hours of 7am and 11pm. Night (NITE) consumption occurs between 11pm and 7am.
  - Variable price options for Commercial customers are dependent on available metering. Either consumption (kWh) options or demand (DMND, SOPD & WOPD) options apply but not both.
  - Of the total forecast revenue through application of these prices, 24.6 percent is attributable to transmission charges for the transmission of electricity across the national grid to Unison's Hawke's Bay network.
  - All prices are quoted exclusive of GST
